

SOFTWARE LICENSE AGREEMENT

TECHNOSOFTWARE AG (THE "LICENSOR") IS WILLING TO LICENSE THE ACCOMPANYING SOFTWARE AND ASSOCIATED DOCUMENTATION INCLUDING AUTHORIZED COPIES OF EACH (THE "SOFTWARE") TO YOU ("LICENSEE") ONLY ON THE CONDITION THAT LICENSEE ACCEPTS ALL OF THE TERMS IN THIS AGREEMENT.

The licensed Software is protected by copyright laws and international copyright treaties, as well as other intellectual property laws and treaties. The licensed Software is licensed, not sold. Technosoftware AG shall own all right, title and interest including the intellectual property rights in and to the information on bug fixes or error corrections relating to the licensed Software that are submitted by Licensee to Technosoftware AG as well as any intellectual property rights to the correction of any errors, if any.

PLEASE READ THE TERMS CAREFULLY BEFORE INSTALLING THE SOFTWARE. BY INSTALLING THE SOFTWARE, LICENSEE ACKNOWLEDGES THAT LICENSEE HAS READ AND UNDERSTANDS THIS AGREEMENT AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. THE EFFECTIVE DATE OF THIS AGREEMENT SHALL BE THE DATE UPON THE SOFTWARE WAS FIRST DELIVERED TO YOU OR FIRST DOWNLOADED BY YOU.

IF LICENSEE DOES NOT ACCEPT THESE LICENSE TERMS, THEN TECHNOSOFTWARE AG DOES NOT GRANT ANY LICENSE TO THE SOFTWARE, AND LICENSEE MUST NOT DOWNLOAD OR INSTALL THE SOFTWARE.

License Model:

Technosoftware AG licenses on a simple per-developer basis and charges **no royalties, runtimes, or server deployment fees unless otherwise specified** which maximizes cost savings at application distribution and installations.

1. Definitions

- 1.1. Virtual Machine - a single instance of an operating system running in a "virtualized" computer that is treated identically to a physical machine in respect to licensing of the Software.
- 1.2. Site - all of the licensing organization's locations within a 10km (6 mile) radius.
- 1.3. Licensed Program(s) means the source code version or binary version of the Technosoftware software as appropriate, as well as any updates or new versions that may be delivered by Technosoftware to Customer during the term of this license.

2. Grant of License

Evaluation Edition: If you downloaded a trial or evaluation version of the Software from Technosoftware's website or obtained it through other means, you may install and use one copy of the Software on a single computer of your organization, solely for evaluation and testing purposes during the evaluation period. You may not use the Software for commercial purposes. You may not make accessible the Software to third parties and you must make sure that no one except your authorized employees has access to the computer where the Software is installed. The Software may contain a disabling mechanism that will prevent it from being used after the evaluation period. You must not tamper with the disabling mechanism or the Software. After the evaluation period, if you do

not order the registered version of the Software, you must remove/destroy the Software and Documentation without delay.

Runtime License: If you purchased runtime licenses you are permitted to use the Software according to the number of purchased licenses. For each license you are permitted to install and use one copy of the Software on a single computer, you might deploy or install the Software together with your end-user products or stand alone.

Developer Edition: A developer license grants the use of the Software for the purpose of software development of OPC enabled products or applications. If you have purchased a developer license the Software may be used within your organization by a single developer to develop applications. Multiple copies of the Software may exist on more than one computer, as long as the use of the Software is by the same developer. In addition, you are permitted to deploy the application making use of the Software. The Software might be used by being compiled into, linked or bind to your application. All use of the Software shall be solely in accordance with the documentation. You are not allowed to resell, rent, lease or sublicense an unmodified or modified version of this Software as stand-alone product, nor to build toolkit or developer tools from it. You are permitted to use the software to build, deploy, sell and distribute end-user products. Licensee must comply with all of the following:

- a. Licensee is permitted to distribute the applications that are built with the Software only in conjunction with and as an integral part of your application, and distribute the binary files only as an integral part of your end-user application. Redistributables, if any, shall be licensed to Licensee's customer "as is"
- b. Licensee's software product(s) are not an OPC Server and/or Client development tool; licensee may not use the Software in such a way that results in development of product(s) that are directly or indirectly (i.e. simplified version or platform/language adoption) competitive with the licensed Software itself or other Technosoftware AG developer products family
- c. Licensee's applications must add primary and substantial functionality to the licensed Software; applications may not pass on functionality which in a simple way makes it possible for others to create software with the licensed Software (e.g. you may not distribute libraries and corresponding header files of the Software together with your application)
- d. Licensee shall indemnify and hold Technosoftware AG, its affiliates, contractors, and its suppliers, harmless from and against any claims or liabilities arising out of the use, reproduction or distribution of applications
- e. Licensee may not use Technosoftware's name, logo or trademark to market your application without explicit written agreement with Technosoftware AG
- f. Licensee must include a valid copyright notice on his software products

Personal Edition: In addition to the Developer Edition, a Personal Edition is a personal, non-transferable license that grants one software developer the non-exclusive right to use the software on his computers. The license cannot be transferred to another developer and may not be taken by the developer to another employer.

Source Code Edition: In addition to the Developer Edition; if you have purchased the source code developer license of the Software, you must use reasonable efforts to maintain the confidentiality of the source code, including ensuring that it is installed and used only on the machines belonging to Licensee's organization and that it is used only by a single developer for development of components and applications that use the Software and that the source code is not otherwise used or copied.

Corporate Edition: In addition to the Developer Edition and Source Code Edition; if you have purchased the corporate license of the Software, the use of the software is granted for all developers that are employees of the specified Site of the company the license was purchased for. You may not make accessible the Software to third parties and you must make sure that no one except your authorized employees has access to the computer(s) where the Software is installed. You are not allowed to use the software by developers that are employees of affiliates or otherwise associated or subsidiary companies. Only for the development of a component or product of the licensee, the licensee is allowed to give external participants - of this particular development project - access to the software. The licensee must insure that the external development partner is following all rules of this SLA and that the development partner is not using the software for any other purpose than this particular development project with the licensee.

3. Use Definition

3.1. Authorization of Usage

Licensee acknowledges that Technosoftware AG is the sole owner of all rights in the Software and in all of the know-how pertaining to this Software except those described in Appendix A. It shall forbear to attack the rights of Technosoftware AG. It will adequately inform third parties of Technosoftware AG's ownership of those rights. Licensee shall only be granted a limited right of usage to the extent to which it is absolutely necessary for the purposes of this agreement. The provisions following hereunder are characterizations of this principle and shall be narrowly construed in cases of doubt. Technosoftware AG's copyright of the Software shall not be exhausted by this agreement.

3.2. Scope of Usage

The Software is "in use" on a computer when it is loaded into temporary memory (i.e. RAM) or installed into permanent memory (e.g. hard disk, CD-ROM, or other storage device) of that computer, except that a copy installed on a network server for the sole purpose of distribution to other computers is not "in use".

4. Restrictions

Software is confidential copyrighted information of Technosoftware AG and title to all copies is retained by Technosoftware AG and/or its licensors. Licensee shall not decompile, disassemble, decrypt, extract, or otherwise reverse engineer Software. Software may not be leased, assigned, or sublicensed, in whole or in part. Software is not designed or intended for use in on-line control of aircraft, air traffic, aircraft navigation or aircraft communications; or in the design, construction, operation or maintenance of any nuclear facility. Licensee warrants that it will not use or redistribute the Software for such purposes.

5. Trademarks and Logos

This Agreement does not authorize Licensee to use any Technosoftware AG name, trademark or logo.

6. Warranty Limitation

The parties agree that it is not possible to develop software thus that it meets all the requirements of the application without error. Technosoftware AG shall make available a user documentation explaining the intended use and the using conditions of the Software, which shall always be kept up to date.

Technosoftware AG does not warrant that the Programs will meet Licensee's requirements, that the Programs will operate in the combinations which Licensee may select for use, that the operation of the Programs will be uninterrupted or error-free, or that all Program errors will be corrected.

PRE-PRODUCTION AND EVALUATION RELEASES OF PROGRAMS AND COMPUTER BASED TRAINING PRODUCTS ARE DISTRIBUTED "AS IS". THE WARRANTIES ABOVE ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE AND NON-INFRINGEMENT.

7. Limitation of Liability

The Software and components are not intended to replace the professional skills and judgment of Licensee and its employees, agents and consultants. Licensee alone shall be responsible for the accuracy and adequacy of information and data furnished for processing and any use made by Licensee of the output of the Software or any reliance thereon.

TECHNOSOFTWARE SHALL NOT BE LIABLE FOR ANY DAMAGES WHATSOEVER ARISING OUT OF THE USE OF OR INABILITY TO USE THIS SOFTWARE, EVEN IF TECHNOSOFTWARE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL LICENSOR BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION DAMAGES FOR LOSS OF PROFITS, REVENUE, DATA OR USE, INCURRED BY LICENSEE OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF THE LICENSOR HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES AND LICENSOR'S LIABILITY FOR DAMAGES HEREUNDER SHALL NOT EXCEED THE AMOUNT OF FEES PAID BY LICENSEE FOR THE RELEVANT PROGRAM OR SERVICES GIVING RISE TO THE LIABILITY.

8. Termination

The license shall be for a period commencing upon the date of initial download or delivery of the Software and continuing until such time as Licensee discontinues use of the Software or this agreement is terminated in accordance with this agreement, but otherwise without limitation as to duration.

Technosoftware AG shall have the right to terminate this agreement if Licensee fails to pay any required license fee(s) or otherwise fails to comply with the license terms and conditions set forth herein. Technosoftware AG shall give written notice to Licensee of such fault, and if such fault has not been remedied within thirty (30) days after, the license granted hereunder shall terminate. If requested, Licensee will certify in writing as to the destruction or return of the Software and all copies in its possession.

Each party's right to terminate the agreement for due cause according to the statutory provisions remains unaffected.

9. Publicity

In the event that licensee has obtained a developer license, runtime license or source code license, Technosoftware AG reserves the right to reference Licensee as one of Technosoftware AG's customers by mentioning Licensee's company name in documents such as, but not limited to, web pages of Technosoftware AG's website, emails originating from Technosoftware AG's employees, publicity brochures and fact sheets, unless explicitly stated otherwise by Licensee. In no event shall Technosoftware AG publish any other information about Licensee other than the single fact that Licensee is a customer of Technosoftware AG.

10. Entire Agreement

This Agreement and each purchase order placed hereunder shall be subject to the substantive law in force in Switzerland without reference to its conflicts of law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods of April 11, 1980 shall be excluded. The parties agree that sole jurisdiction and venue for any dispute relating to the agreement shall be in a court at Technosoftware AG's company location in Niederlenz, Switzerland.

This Agreement is the parties' entire agreement relating to the Software. It supersedes all prior or contemporaneous oral or written communications, proposals, warranties, and representations with respect to its subject matter, and following Licensee's acceptance of this license by clicking on the "Accept" Button or by installing and using the Software, will prevail over any conflicting or additional terms of any quote, order, acknowledgment, or any other communications by or between the parties. No modification to this Agreement will be binding, unless in writing and signed by an authorized representative of each party.

11. Export Control

Licensee acknowledges that the licensed Software may be subject to export control restrictions of various countries. Licensee shall fully comply with all applicable export license restrictions and requirements as well as with all laws and regulations relating to the importation of the licensed Software and/or modified Software and/or applications and shall procure all necessary governmental authorizations, including without limita-

tion, all necessary licenses, approvals, permissions or consents, where necessary for the re-exportation of the licensed Software, modified Software or applications.

12. No Implied License

There are no implied licenses or other implied rights granted under this Agreement, and all rights, save for those expressly granted hereunder, shall remain with Technosoftware AG and its licensors. In addition, no licenses or immunities are granted to the combination of the licensed Software and/or modified Software, as applicable, with any other software or hardware not delivered by Technosoftware AG under this Agreement.

13. Surviving Sections

Any terms and conditions that by their nature or otherwise reasonably should survive a cancellation or termination of this Agreement shall also be deemed to survive. Such terms and conditions include, but are not limited to the following Sections: 4, 5, 6, 7, 9, 10, 11, 12 and 13 of this Agreement. Notwithstanding the foregoing, Section 3 shall not survive if the Agreement is terminated for material breach.

14. Severability

If any of the above provisions are held to be in violation of applicable law, void, or unenforceable in any jurisdiction, then such provisions are hereby waived or amended to the extent necessary for the Agreement to be otherwise enforceable in such jurisdiction. However, if in Technosoftware AG's opinion deletion or amendment of any provision of the Agreement by operation of this paragraph unreasonably compromises the rights or increase the liabilities of Technosoftware AG or its licensors, Technosoftware AG reserves the right to terminate the Agreement.

Appendix A and B are part of the License Agreement and must be followed by the licensee.

IF YOU DO NOT AGREE WITH THE ABOVE TERMS AND CONDITIONS, DO NOT DOWNLOAD OR INSTALL THE LICENSED PRODUCT.

Third Party Licenses and Open Source License Acknowledgement

OPC XML Server Framework C++ related products from Technosoftware use third-party and open source software subject to the following licenses:

- a) gSOAP proprietary software development site license
(available at <http://www.genivia.com/Products/gsoap/GeniviaGSoapLicense.pdf>)

OPC UA related products from Technosoftware AG use third-party and open source software subject to the following licenses:

- a) OpenSSL
- b) LibXML2
- c) OPC UA ANSI C Stack

1. OpenSSL

This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit (<http://www.openssl.org/>).

2.2 License Issues

The libxml2 library is released under the MIT Licence and includes following copyright notice:

Except where otherwise noted in the source code (e.g. the files hash.c, list.c and the trio files, which are covered by a similar licence but with different Copyright notices) all the files are:

Copyright (C) 1998-2003 Daniel Veillard. All Rights Reserved.

Except as contained in this notice, the name of Daniel Veillard shall not be used in advertising or otherwise to promote the sale, use or other dealings in this Software without prior written authorization from him.

3. OPC UA ANSI C Stack

This product includes software that was developed by the OPC Foundation (<http://www.opcfoundation.org/>). The included software, the OPC UA ANSI C Stack, contains of two modules which are different in licensing:

- the Ansi C Stack Portability Layer (containing the platform specific abstraction)
- the Ansi C Stack Core Module (containing the general functionality)

3.1 Ansi C Stack portability Layer

This module is released under the MIT License and includes following copyright notice, except where otherwise noted in the source code all the files are:

Copyright (C) 2008 OPC Foundation, Inc., All Rights Reserved.

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

The above copyright notice shall be included in all copies or substantial portions of the Software.

All software distributed under the MIT is provided strictly on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND LICENSOR HEREBY DISCLAIMS ALL SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, OR NON-INFRINGEMENT.

In case of any license issues related to Ansi C Stack Portability Layer and the MIT please contact license@opcfoundation.org.

3.2 Ansi C Stack Core Module

The Ansi C Stack Core Module stays under the Reciprocal Community License (RCL) which is based on the concept of reciprocity or, if you prefer, fairness.

The RCL is adapted from the Open Source Reciprocal Public License (RPL) where the "Public" in the Open Source RPL license is replaced by the "Community" in the RCL License. In short, the RPL license grew out of a desire to close loopholes in previous open source licenses, loopholes that allowed parties to acquire open source software and derive financial benefit from it without having to release their improvements or derivatives to the community which enabled them. This occurred any time an entity did not release their application to a "third party". While there is a certain freedom in this model of licensing, it struck the authors of the RPL as being unfair to the open source community at large and to the original authors of the works in particular. After all, bug fixes, extensions, and meaningful and valuable derivatives were not consistently faster, growth and expansion of the overall open source software base.

While you should clearly read and understand the entire license, the essence of the RCL is found in two definitions: "Deploy" and "Required Components".

- Regarding deployment, under the RCL your changes, bug fixes, extensions, etc. must be made available to the community when you Deploy in any form -- either internally or to an outside party. Once you start running the software you have to start sharing the software.
- Further, under the RCL all components you author including schemas, scripts, source code, etc. -- regardless of whether they're compiled into a single binary or used as two halves of client/server application -- must be shared. You have to share the whole pie, not an isolated slice of it.

All software distributed under the RCL is provided strictly on an "AS IS" basis, WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, AND LICENSOR HEREBY DISCLAIMS ALL SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, QUIET ENJOYMENT, OR NON-INFRINGEMENT. See the RCL for specific language governing rights and limitations under the RCL.

This module is released under the RCL Licence and includes following copyright notice, except where otherwise noted in the source code all the files are:

"Portions copyright © by OPC Foundation, Inc. and licensed under the Reciprocal Community License (RCL)"

In case of any license issues related to Ansi C Stack Core Module and the RCL please contact
license@opcfoundation.org.

Appendix B

1. Parts of the Licensed Software that are permitted for distribution ("Redistributables"):

The licensed Software's main and plug-in libraries of the SDK in object code form
The licensed Software's communication stack in object code form ("UA Stack")
The licensed Software's configuration tool ("UA Config")

2. Parts of the Licensed Software that are not permitted for distribution include, but are not limited to:

The licensed Software's source code and header files of any of the SDK modules
The licensed Software's source code and header files of the communication stack ("UA Stack")
The licensed Software's certificate generating tool ("Cert Gen")
The licensed Software's tool for modeling Address space ("Information Modeler")
